HEARING ON NEW LENOX WATER PROBLEM EXTENDED TO JULY 28

The battle for water in New Lenox still continues, and the water users are hoping it may not be much longer before the question is settled.

Representatives of the South New Lenox Improvement association were again called to Chicago last week to attend another hearing relative to a petition filed with the Illinois Commerce Commission June 8, 1948.

Attorney Ralph McCoy presented witnesses who established the fact that there have been frequent interruptions in the water service over a long period of time. Mrs. Stanley Techman, a water user in the locality in question, gave a detailed report on a pump failure which caused a shut down of over five weeks back in 1932.

Mrs. Myron McKiernan, another water user, reviewed a number of more recent breakdowns which have occurred within the last few years including a long period of three weeks during the summer of 1945 and the more recent seventeen day failure which occurred last January of this year.

E. T. Chabberg who represented the Suburban Water Company submitted an estimate for a new well, pumping equipment, and pump house of over \$12,000.00. A committee from the association also investigated the cost of adequate auxiliary emergency equipment and obtained an estimate of approximately half that amount.

Judge Warren Henry, examiner for the Illinois Commerce Commission, has continued the hearing until July 28 in order that the Commission's water engineer, may have an opportunity to investigate the present water system and render a report.

Mr. McCoy states that inasmuch as all testimony is complete, he believes that Judge Henry will be prepared to announce his decision at the next hearing July 28.

Home Coming At Frankfort A Huge Success

The first annual homecoming of Frankfort held last Saturday and Sunday was a huge success. It is stated that it was the largest crowd ever gathered in the Frankfort grove.

The opening on Saturday evening was very large attended and everything was going well, until the lights were turned on when darkness began to gather. In a few minutes, there was darkness again, and it was found that the transformer on the ground had burned out. The Public Service company was contacted at once, which sent their crew of workmen, but it required a new transformer, and it was nearly midnight before lights were turned on once more.

In the meantime, the dancing continued, but no games or amusements could be operated, and many who were not dancing went home.

Sunday found the grove filled to overflowing. The car lots were filled and many were parked along the highway. Every one enjoyed the entertainment and the antics of the clown on the trapeze.

The thrilling moment came when the awarding of the 1948 Chevrolet car occurred and it was found to be a young man, 18 years old, a graduate this year of Joliet township high school, Leroy Book of 111 Peale street, Joliet. A telephone call to his home was made and he and his mother came at once to the grove to accept his prize, which overjoyed him.

Mayor George Sangmeister, on behalf of the Frankfort fire department wishes to express their appreciation to all who helped to make this picnic a grand success.

Forecast Bumper Illinois Corn Crop

Abundant rains and near-tropic heat and humidity are hastening the growth of what looks like one of the largest crops of corn ever raised in Illinois. A recent report by state and federal departments of agriculture shows a prospective yield of 55 bushels per acre for a total of 497,420,000 bushels. Last year's crop was only 343,492,000 bushels. Corn is farther along than usual for this time of year, and in some fields has been laid by with only two cultivations.

Soybeans also are making rapid growth, on an acreage about ten percent less than that of last year. Oats harvest is in progress, with total yield estimated at 156,251,000 bushels, compared with a 1947 crop of 117,005,000 bushels.

Oldtime New Lenox Families Visiting From California

Mr. and Mrs. Walter Osmus, and the latter's parents, Mr. and Mrs. H. N. Dickinson of Covina, Calif., arrived in New Lenox last week for a visit with their many friends and relatives. They are making the headquarters in New Lenox in the home of Mr. and Mrs. Ted Rowsell, the former Alta Urch, daughter of Mrs. Osmus, and granddaughter of the Dickinsons, and daughter of Mrs. Osmus, Mr. and Mrs. Melvin Fink, the former Doris Ursh.

Mr. and Mrs. Dickinson, old time residents of New Lenox, operated a grocery store, which is now the I. G. A. store and also the elevator. Mr. Dickinson also was postmaster at New Lenox. Twenty eight years ago they sold their business and property in New Lenox and moved to Covina, where they bought an orange grove. They have sold it now and have moved into town, enjoying retirement. The Dickinsons have not been back to New Lenox for 22 years.

The Osmuses who left New Lenox 12 years ago, were back for a visit in 1942. Since their arrival here the family have been enjoying picnics and visiting with as many friends as they can. They expect to leave in about another week for their return trip home, which is by auto.

The date have been set for the Mokena Homecoming. They will be Friday, Saturday and Sunday, August 20, 21 and 22, and are being sponsored by three Mokena organizations; the Mokena Civic association, the William Martin Post VFW, and the Volunteer Fire department.

MOKENA HOMECOMING DATES SET

The committee working out the plans consist of: Alfred Hatch and Elmer Schoeneck, for the Civic Association, Fred Steinhagen and Marshall Mueller for the VFW, and Mrs. Russell Stankus and Mrs. Glen Peterson for the VFW auxiliary, and for the firemen are John Search and Harold Cooper.

The place will be as formerly, Front street, in Mokena where friends can meet friends, strolling down the broad avenue, stopping to chat with this one and that and viewing the exhibits and having a good time in general.

Plans this year call for exhibits by local and neighboring business men, which will include farm implements, etc. According to advance notice, these will be quite interesting.

One of the main features will be the crowning of the Queen on Sunday afternoon.

There will be the usual rides for children and adults. A guest register and attendance prizes will be awarded as well as several main prizes.

Mark these dates on your calendar, invite your friends, and attend as many times as possible.

It was through the kindness of Mr. Geuther, Mrs. B. Needham, Mrs. A. Shoop; Mr. Dunham and Rev. W. Riemann, who drove care taking the boys to the arboretum that they were afforded this opportunity, which is much appreciated by those attending. All learned much and had a nice time. Bruce Shoop will also be awarded his First Class pin at the Court of Honor.

A 20,000 acre area, bounded on the south by Frankfort and Matteson, on the west by Orland Park, on the north by a forest preserve, and on the east by Flossmoor and Homewood and the I. C. tracks, is being studied by experts in transportation, finance, engineering, distribution and merchandising.

Their study is part of the beginning of a proposed project for a combined air, rail, highway, subway and suburban terminal, to be located on this site, some 23 miles southwest of the Chicago loop.

During the past two weeks aerial photographs have been taken of the area, mainly farm land, from which to make a mosaic.

A mosaic is a large map consisting of many overlapping photographs which when fitted together form an integrated scale picture map of the area's surface.

The photographing has been done by a team from the 108th observation squadron, Illinois National Air Guard, from Chicago airport, authorized to this work nearly a year ago by Gov. Green.

Capt. Don Smith and Master Sgt. Joe Selski first made pictures from 15,000 feet in an AT-11 plane, and then followed with the week-long job of timed exposures of the terrain from a height of about 2,000 feet.

Governor Green also has asked Col. F. H. Miles, Jr., ordnance department, retired, to prepare general engineering plans for the combined terminal, which plans are to be studied by the committee of experts. Major Chester Clark is associated with Col. Miles, in preparation of the primary data for the committee's studies.

Col. Miles and his associates are now working at 160 N. LaSalle street, outlining general details of the project which is estimated to cost one billion dollars and to increase values, services and efficient transportation facilities for the Chicago area.

It would include a vast railroad passenger and freight terminal, an airport with runways five miles long, a transfer station to move freight from box cars to trucks, a hotel, athletic stadium, and many other elements deemed essential to such a center.

Plans call for a 150 mile an hour subway and suspension line to connect the loop with the terminal on a ten minute time basis.

Multiple freight lines also would link Chicago's present loop and industrial area with the terminal.

As planned, the "National Transport Terminal" would be the greatest center in the world for routing of goods and passengers.

A committee to consider the project's merits is expected to be named by Gov. Green sometime this summer. He has already allocated \$70,000 of state funds to the preliminary work which has virtually been accomplished, according to Col. Miles.

Senator Wayland Brooks has also indicated strong personal interest in support of this transportation transfer center.

Russia Receiving \$100 Million U. S. Electrical Goods

Washington, D. C. July 6—Nearly \$100 million worth of electrical equipment and apparatus, critically needed to extend electrification in rural areas, has been exported to Russia and her satellite countries in the last two years, according to an article written by Senator C. Wayland Brooks of Illinois in the July issue of the magazine, "Rural Electrification."

In the article, Senator Brooks listed electrical generation, transmission and distribution materials which were exported in 1946 and 1947. The figures show that 102,798 household refrigerator were reported in 1946 and 273,624 in 1947. They were a part of electrical equipment and appliances valued at \$91,935,000 of which, Senator Brooks said, nearly ten per cent went to Communist-controlled countries.

The article praised the Rural Electrification Administration and who borrow money from that agency for the purpose of electrifying their farms through cooperative organizations for making a "brilliant record in the an-

nals of modern America." It said that Congress has recognized the importance of these contributions and has made increasing amounts available for REA loans to continue electrification of farm homes and rural establishments.

"During the past 13 years, REA financed power systems have brought comfort, convenience and other contributions of electricity to over two million families, but another two million families who have just as much right to Twentieth Century living are still waiting for power lines to reach their homes, to modernize their barns and farmyards," the article states.

"But more than REA loans and the aggressive pioneer spirit of self-help and ingenuity are required, the Illinois

Senator added. He went on to point out that the critical shortage of materials needed for building rural electric power lines is holding up the extension of rural electrification to remaining farms.

"An examination of our export statistics during the past three years shows that ten per cent of the electrical equipment and materials which have been exported and nearly a billion dollars' worth has been shipped abroad in those three years has gone to Soviet Russia and her satellite nations," the article says. "Surely the memory of our shipment of scrap iron to Japan for use in making the shells and shrapnel which later killed thousands of American's young men, has not been forgotten."

The Senator's article referred to export figures compiled by the Department of Commerce, which show that Russia received electrical machinery and apparatus valued at \$44,056,000 in 1946 and \$19,992,000 in 1947. Only Canada, receiving \$55,325,000 worth of electrical products, exceeded Russia in 1946.

In 1947, Russia ranked eighth in the value of electrical exports from the United States. "During the first four months of this year," Senator Brooks adds, "we exported electrical machinery and apparatus valued at \$3,992,000 to Russia."

"It is in the power of the American people to insist that the new Congress elected in 1948 and the next President of the United States be cooperative in meeting this pressing problem of the American farmers who have waited so long for electric service. Complete coordination between the Legislative and Executive Branches of our national government to achieve this objective is imperative."

Hawaii and Alaska Race For Statehood

Hawaii and Alaska are now running neck and neck in the race for Statehood. Last week Hawaii sent Sen. Guy Cordon of Oregon enough fresh pineapple to supply the restaurant tables of the Capitol. Alaska's "plug" was several hundred pounds of salmon. It must mean something to the world at large to realize that while territories are trying desperately to become members of this commonwealth of States, the countries adjacent to Russia are trying frantically to avoid being coerced into becoming members of the Soviet Union.

"Wheels A-Rolling" Official Song of Railroad Fair

The official song of the Chicago Railroad Fair will be "Wheels A-Rolling," named after the title of the Fair pageant which will be given four times daily beginning Tuesday, July 20, the opening day of the Fair, announces Maj. Lenox R. Lohr, president.

The song has been composed especially for the Fair by Mr. and Mrs. Philip Maxwell of Evanston. Maxwell, who is director of the Chicago Tribune's annual Chicago Land Music Festival, wrote the words and his wife, Helen Purcell Maxwell, composed the music. The song is published and will be available on the Fair grounds and throughout America.

BEWARE OF CESSPOOL AND CISTERN CLEANING "PIRATES"

If you have an itinerant outfit clean your cesspool or cistern, be sure to have an agreement in advance as to what the total cost of the job will be. It is best to have this agreement in writing.

An example is given from one Illinois farmer where traveling cleaners said it would cost "a little over 10" to clean the cistern. When they finished they told the farmer it would be \$72 and collected from him.

The best way not to get gypped by such outfits is to have the work done by someone in your own community.

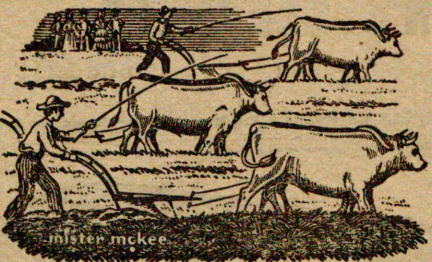

For cleaning septic tanks, cisterns, and grease traps, CALL TINLEY PARK 395.

This Month in Your Service BULLETIN

THE COUNTY FAIR season gets under way next month in Northern Illinois, and to mark the colorful occasion, we have collected items on our early farmer-festivals by paging through old, old copies of the Prairie Farmer, a publication which has stumped ardently and sincerely for the County Fair ever since 1841. We were lucky enough to find accounts of the inaugural fairs—we were surprised to learn just how many years ago they were held—in our counties. We conjectured on the "division of interests" which caused one county to hold two annual fairs for years until the opposing factions kissed and made up. Until our research, we had no idea that some of our counties imported livestock from the East for their early exhibitions, or that they displayed steam-operated threshers and mills so soon. And the names of their farm products—such as apples, melons, Imphee—aroused our curiosity. Some of the correspondents—and contributors too—were unintentionally amusing as they pursued their lips and shook their heads in disapproval of "lady equestrians" and "catchpenny concerns" on the grounds. So hi-ho, come to the fair of long ago in OUR COUNTY FAIRS illustrated by John McKee.

International Uniform Sunday School Lessons

BY LOUIE D. NEWTON, D. D.

SCRIPTURE: I Samuel 18-20; 23:16-18; II Samuel 1:1-27; 21:7.

DEVOTIONAL READING: I Corinthians 13:1-18.

Jonathan, Loyal Friend

Lesson for July 25, 1948

WELL might we term this a lesson on the facets of friendship. Rarely will one come upon such a splendid example of friendship in all literature. Coleridge put it well when he wrote, "Friendship is a sheltering tree." Diogenes Laertius, writing on Aristotle, says, "He was once asked what a friend is, and his answer was, 'One soul abiding in two bodies.'"

Such was the friendship of Jonathan and David—a sheltering tree—one soul abiding in two bodies. Although Jonathan's father attempted at least ten times to kill David, Jonathan was drawn the closer to David, with whose soul his was knit.

The record of this friendship is found in our scripture and devotional readings for the lesson, with the golden text from Proverbs 17:17, "A friend loveth at all times."

A PRINCE SHARES WITH A SHEPHERD

JONATHAN was the crown prince apparent. David was a shepherd boy. Saul expected to place Jonathan on the throne. God had selected David.

Jonathan would, no doubt, have made a better king than Saul, his father; but he had no desire to be king when he discovered the kingly qualities in his friend, David. Not once did Jonathan ever indicate any disappointment in not becoming king.

JONATHAN STANDS UP FOR HIS FRIEND

WHEN Saul openly plotted the death of David, Jonathan begged his father to reconsider his course and spare the life of the man who had killed Goliath and had proved himself the valiant friend of Saul. This was the final test of Jonathan's sacrificial love for David. He might have remained silent, thus aiding in the death of the one man who stood between him and the throne. But Jonathan was made of the stout texture which counts no sacrifice too dear for a friend. He was willing to stand up and be counted when it meant that he would not become king. Thus we see that true friendship is not always easy. It usually is very costly, but it pays big dividends in the coin of eternal wealth.

FRIENDSHIP THAT COSTS

AND like as Jonathan stood up and witnessed his lasting friendship for David, at a very great cost, so are we today summoned to this ennobling type of friendship for Christ. "Ye are my friends if ye do whatsoever I command you," he once said.

Young people find it rather costly to be loyal friends of Christ today. There are many siren voices that invite young people to take the low road—social drinking, gambling devices of one sort and another, satisfaction of sensual desires. But the true friend of Christ will withstand these voices, choosing rather the high road of Christian gentlemen.

SACRIFICIAL FRIENDSHIP

"FRIENDSHIP is the loveliest flower in the garden of humanity," according to my cherished friend, Dr. Hight C. Moore. I would add this thought—true friendship flowers in the garden of humanity, but it finds its life in the Garden of God's Perfect Eden.

I have not known one single friendship that has impressed me that did not stem from above. "How can two walk together except they be agreed?" And the only cement that will hold human hearts together—one soul in two bodies—is the grace of God.

"Friendship is as God, who gives and asks no payment," said Richard Hovey, and not until the human will is yielded to the will of God, even as was the will of Jonathan, can sacrificial friendship come to flower and to harvest.

Magic Ministry

A club of ministers who use magic to illustrate religious lessons has been formed under the name of "Magi-Ministers." Most of the members practice amateur magic. One of their favorite tricks is the passing of a handkerchief through a tube marked "Church" which changes its color from black to white, illustrating how a blackened soul may be cleansed of sin.

BASEBALL

TINLEY KNOCKS OVER OAK FOREST 19 TO 4

On Sunday, July 18, Tinley beat Oak Forest by a score of 19 to 4 at Oak Forest.

In the first inning, Cummins first up rolled to the second baseman, but was safe when he bobbled the ball. Anfield followed with a triple scoring Cummins but was out at the plate when he tried to stretch it into a home run. Kuech followed with a single but was left stranded when Nasebandt flew out and Anderson rolled out 3rd to first.

In the second Tinley combined 4 single and 2 errors by Oak Forest, to tally 4 more runs.

In the 3rd a single by Anderson, a single by Ficker, a triple by Lloyd, a single by Terrell ousted Kunkel the Oak Forest pitcher. Simmons now pitching made Firchau fly out to left, Cummins rolled out second to first and Anfield walked. Kuech singled and Nasebandt struck out to end the inning. After the inning was over the score showed Tinley tallied 4 runs on a walk and five hits, one a triple.

The Sportsmen with 2 hits and 2 walks scored 2 more runs in the 4th.

In the fifth Kuech was safe when Simmons bobbled his roller. Nasebandt popped out to the second baseman and Anderson came up with a double, his third successive hit.

Ficker drove them both home with a triple to left center but was out at the plate trying to stretch it. Lloyd then rolled out second to first.

Tinley scored 2 more in the seventh and 4 in the ninth to bring their run 2nd, 1 in the third, 1 in the fifth and total to 19.

Oak Forest was held to 1 run in the one in the eighth by Firchau, who pitched his best when men were on bases.

Anfield ended the game with a sparkling double play when he dove to his right to snare Cline's liner and step on third to double Massey.

ORLAND HOME BUREAU

Mrs. John Grof entertained the members of the Orland Home Bureau in her newly remodeled home Friday evening.

Plans were completed for the Club's Annual picnic to be held in Highland Park near Joliet on Sunday, August 8. It will be a family affair beginning with potluck lunch at 1:00 o'clock.

Each member is to bring a dish to pass and table service for her own family. Games will be in progress during the afternoon.

The Plastic Party to be given at the Maue school on Wednesday was also discussed.

Each member contributed toward a gift for little James Michael, newest arrival of the Raymond Wesleys who was born last Wednesday in a Chicago hospital. Mrs. Wesley is our very capable vice chairman.

We are very glad to welcome a new member into a group, Mrs. Mary Jane Lohmann of Alpine.

Guests present at the meeting were Mrs. S. Nemeth of Orland and Mrs. A. Weber of Chicago.

Following the meeting refreshments were served by the hostess assisted by Mrs. Paul Lembke.

August is our vacation month, so our next meeting will be Sept. 17 at the home of Mrs. Paul Lembke.

President Truman, while on a political vacation paid for by the taxpayers called Congress a lot of names, none of which were nice. And he said Congress should stay on the job until a lot of unfinished business was taken care of, or something like that. We are inclined to agree with Mr. Truman but if he had been on the job at the time he made those remarks his statements would be better received by the voters. As a matter of fact the Congress was on the job and the President was galavanting and the public paying the bills.—Pawnee (Okla) Chief
